

## UVC professional sterilizer

Ref : UVC 120

*Ideal for hospitality, the professional UV sterilizer eliminates 99.99% of all pathogenic micro-organisms present on cutlery, utensils, dishes... and also on any type of object likely to be points of contact for contamination.*

## Description

### The UVC 120 professional sterilizer, an efficient UV disinfection device

The pro UVC 120 sterilizer eliminates 99.99% of micro-organisms, bacteria and viruses without addition of chemicals. This physical and natural sterilization is carried out in **7 minutes** by **2 UVC lamps with LED technology (2 x 60 W)** without the need to turn the products over in the machine. The **UV pro sterilizer** can be used to disinfect cutlery, kitchen utensils, plates... for restaurants, and also magnetic or classic hotel room keys.

This germicidal equipment has been tested according to the AFNOR NF T72-281 standard. It stops the proliferation of viruses and bacteria.

## A secure germicidal device

The UVC 120 professional sterilizer is a **highly secure germicidal device**:

- The **polycarbonate lining on walls** filter UVC rays.
- When doors opened, the LED UVC lamps are switched off by means of **2 micro-switches per door**.
- An electronic, audible and preset timer allows **perfect control** of the exposure time.

## Multiple and almost limitless applications

Ideal for hospitality, the professional UV sterilizer not only disinfects cutlery, dishes or room keys. It is also recognized for other professional applications, such as:

- Sterilization of **surgical tools and dental instruments**
- Disinfection of **eyeglasses and sunglasses** in opticians' offices
- The elimination of micro-organisms on accessories in **hairstyling salons** (scissors, combs, clippers, hair dryers etc.).
- The disinfection of **jewelry** tried on in shops
- Regular decontamination of **office equipment** in any company (tablets, smartphones, keyboards, mice, USB keys, etc.).

All these items are to be placed on the glass tray and its stainless-steel support (dimensions: 400 x 300 x 250 mm) for optimal disinfection in the sterilizer.

The variety of applications makes this professional UVC 120 sterilizer a **versatile disinfection unit**.

# Technical characteristics

Outside dimensions	590 x 430 x 380 mm
Power	120 W
Inside dimensions	400 x 300 mm
Weight	20 kg
volts	230 V
